

Blackpebble Website — Full Replit Prompt

Build a multi-page website for "Blackpebble" (\$BLK) — a Solana memecoin that positions itself as "The BlackRock of PumpFun." This is a satirical parody of BlackRock, but the website must be played 100% straight with zero jokes, zero memes, and zero emojis. The humor comes entirely from the contrast between the ultra-corporate presentation and the absurdity of what's actually being described (a memecoin fund that buys shitcoins on PumpFun and airdrops them to holders).

Use blackrock.com as the primary design reference. The site should look like a legitimate institutional asset management firm at first glance.

GLOBAL DESIGN SYSTEM

Color Palette:

- Primary background: #0a0a0a (near-black)
- Secondary background: #141414 (dark charcoal for cards/sections)
- Text primary: #ffffff
- Text secondary: #a0a0a0 (muted gray for subtitles/descriptions)
- Accent: #c9a96e (muted gold — used sparingly for CTAs, highlights, stat numbers)
- Borders/dividers: #1f1f1f

Typography:

- Headings: Playfair Display (serif) — large, bold, institutional feel
- Body text: Inter or Helvetica Neue (clean sans-serif)
- Hero headlines: 48-72px on desktop, 28-36px on mobile
- Body: 16-18px
- Letter-spacing on headings: slight tracking for elegance

Layout Principles:

- Generous whitespace/dark space between sections (80-120px padding)
- Max content width: 1200px centered
- Full-width hero sections with contained text
- Cards with subtle borders (#1f1f1f) and no heavy shadows
- Subtle fade-in-on-scroll animations for sections
- Smooth scroll behavior

- Fully mobile responsive

Navigation:

- Fixed/sticky header with slight background blur on scroll
 - Left: Logo image (use the uploaded white-on-black "BlackPebble" text logo — the clean flat one)
 - Center/Right: About Us | Investment Strategy | The Vault | Insights | Community
 - Far right: "Become a Shareholder" button (muted gold outline, small)
 - Mobile: hamburger menu
-

PAGE 1: HOME (Landing Page)

Hero Section:

- Full viewport height (100vh), dark background
- Center the brushed metal 3D "BlackPebble" logo image prominently (large, ~400-500px wide)
- Below logo: Large serif headline: "Helping more and more people experience financial well-being in the meme economy."
- Subtitle (muted gray): "Blackpebble is a global meme asset manager dedicated to identifying asymmetric opportunities across the Solana ecosystem."
- CTA button: "Learn Our Strategy" → links to Investment Strategy page

Stats Bar:

- Horizontal row of 4 stats with thin dividers between them
- "Assets Under Management: —" | "Shareholders: —" | "Operations Completed: —" | "Markets Covered: Solana"
- Numbers in gold accent color, labels in muted gray
- Note: All stats are placeholder dashes for now (will be updated post-launch)

"What We Do" Section:

- Section headline: "Institutional-Grade Conviction in an Inefficient Market"
- 3 cards/columns:
 1. **Strategic Acquisition** — "We identify and accumulate positions in high-conviction opportunities before public announcement, ensuring optimal entry for the fund."
 2. **Shareholder Distribution** — "Acquired assets are distributed directly to qualifying

\$BLK holders based on position size, loyalty tenure, and participation metrics."

3. **Portfolio Management** — "Active monitoring and management of fund positions across the Solana ecosystem, with transparent reporting to all shareholders."

"Latest Operation" Section:

- Headline: "Latest Operation"
- Single card with placeholder content:
 - "OPERATION #001 — [CLASSIFIED]"
 - "Status: Pending"
 - "Details will be disclosed following accumulation phase completion."
- Style it like a corporate press release teaser

"Our Thesis" Brief Section:

- Short paragraph: "Traditional meme markets are defined by information asymmetry, fragmented liquidity, and irrational pricing. Blackpebble exists to exploit these inefficiencies on behalf of our shareholders. We deploy capital across the full spectrum of PumpFun opportunities — distressed legacy assets, emerging narratives, undervalued community takeovers, and early-stage high-conviction plays — distributing gains directly to those who hold with us."

Footer (same on all pages):

- Top: thin gold line divider
- Left: BlackPebble logo (small, white text version)
- Center: nav links (About | Strategy | The Vault | Insights | Community)
- Right: Social icons — circular buttons (40px), no text labels, just the icon/logo inside a circle with subtle border. Icons for: X (Twitter), Telegram, PumpFun, DEX Screener
 - User will upload the actual icon images for these — use uploaded images, apply border-radius: 50% and a subtle #1f1f1f border
- Bottom: "© 2025 Blackpebble. All rights reserved. Not financial advice."
- Below that in smaller muted text: "Blackpebble is a satirical entity and is not affiliated with BlackRock, Inc. or any regulated financial institution. \$BLK is a memecoin on the Solana blockchain. Nothing on this website constitutes financial advice."

PAGE 2: ABOUT US

Hero:

- Headline: "We started with one belief."
- Subtitle: "That meme markets are inefficient, and opportunity exists for those who move with conviction and patience."

"Our Story" Section:

- Headline: "Our Story"
- Body text (2-3 paragraphs, corporate tone):
 - "Blackpebble was founded on a simple observation: the Solana meme economy generates extraordinary value, yet the vast majority of participants lack the tools, timing, or conviction to capture it. Information moves faster than capital. Narratives form and dissolve within hours. The average participant is perpetually late."
 - "We built Blackpebble to solve this problem. By pooling conviction under a single fund structure, we enable our shareholders to benefit from institutional-grade positioning without the need for constant market surveillance. The Lead Fund Manager identifies opportunities, accumulates positions quietly, and distributes acquired assets directly to qualifying holders."
 - "Our mandate is broad by design. We do not limit ourselves to a single strategy or asset class within the Solana ecosystem. Distressed assets, emerging narratives, community takeovers, early-stage launches — if the conviction is there, we deploy."

"Our Approach" Section:

- Headline: "Our Approach"
- 3-step visual (numbered or timeline style):
 1. **Identify** — "Continuous monitoring of PumpFun launches, social sentiment, on-chain data, and narrative cycles to identify asymmetric opportunities."
 2. **Accumulate** — "Quiet position building before public announcement. No community voting. No front-running. The Lead Fund Manager acts with full discretion."
 3. **Distribute** — "Acquired tokens are airdropped to qualifying \$BLK holders based on a weighted qualification framework."

"Leadership" Section:

- Headline: "Leadership"
- Single card:
 - Title: "Lead Fund Manager"
 - Description: "Sole decision-maker for all fund operations. Responsible for opportunity identification, capital deployment, risk management, and shareholder

communications. Identity undisclosed."

- No image — just a dark silhouette placeholder or abstract icon

Stats Section:

- "Shareholders: —" | "Operations Completed: —" | "Total Distributed: —"
-

PAGE 3: INVESTMENT STRATEGY

Hero:

- Headline: "Full-Spectrum Meme Asset Management"
- Subtitle: "We deploy capital wherever conviction meets opportunity."

"Our Thesis" Section:

- Headline: "Investment Thesis"
- Body: "The PumpFun ecosystem generates thousands of new assets daily. The overwhelming majority fail. But within that noise exists a consistent stream of mispriced opportunities — assets with strong narrative potential, undervalued community bases, or technical setups that favor asymmetric returns. Blackpebble exists to identify and capture these opportunities before the broader market recognizes them."

"Strategy Categories" Section:

- Headline: "Strategy Universe"
- 4 cards in a grid:
 1. **Distressed Asset Acquisition** — "Legacy tokens with dormant but recoverable communities. We acquire controlling positions and catalyze revival through coordinated shareholder action."
 2. **Emerging Narrative Plays** — "Early identification of narrative cycles (AI, gaming, political, cultural) and positioning in assets likely to benefit from attention rotation."
 3. **Community Takeover (CTO) Targets** — "Abandoned projects with strong ticker/branding but absent developers. Blackpebble acquires and redistributes to shareholders who execute the takeover."
 4. **High-Conviction Early Stage** — "New PumpFun launches with exceptional fundamentals: strong dev, unique narrative, organic community formation. We enter early and hold with conviction."

"How It Works" Section:

- Headline: "Operational Framework"

- Step-by-step timeline/process (vertical or horizontal):
 1. **Identification** — "Lead Fund Manager identifies opportunity through proprietary screening."
 2. **Due Diligence** — "Assessment of risk factors: liquidity, holder distribution, narrative durability, dev history."
 3. **Accumulation** — "Quiet position building. No pre-announcement. No community vote. Zero front-running risk."
 4. **Announcement** — "Position disclosed to shareholders via official channels once accumulation is complete."
 5. **Distribution** — "Acquired tokens airdropped to qualifying \$BLK holders based on weighted framework."
 6. **Community Execution** — "Shareholders collectively drive awareness, volume, and value for distributed assets."

"Qualification Framework" Section:

- Headline: "Shareholder Qualification"
- Subtitle: "Not all shareholders receive equal distributions. Allocation is weighted by the following factors:"
- Table or card grid:
 - **Position Size** — "Larger \$BLK holdings receive proportionally larger distributions."
 - **Loyalty Tenure** — "Duration of continuous holding. Longer holders receive multiplied allocations."
 - **Participation Score** — "Active engagement in community raids, content creation, and ecosystem support."
 - **Diamond Hands Bonus** — "Shareholders who have never sold receive enhanced weighting."

"Risk Factors" Section:

- Headline: "Risk Factors"
- Styled like a real prospectus risk section (smaller text, formal tone):
 - "All investments carry risk. Past operations do not guarantee future results."
 - "Meme assets are highly volatile and may lose 100% of their value."
 - "Distribution timing and amounts are at the sole discretion of the Lead Fund Manager."
 - "There is no guarantee that any acquired position will appreciate in value."

- "\$BLK itself is a memecoin and carries all associated risks including but not limited to: liquidity risk, smart contract risk, regulatory risk, and market risk."
 - "This is not financial advice. Do your own research."
-

PAGE 4: THE VAULT

Hero:

- Headline: "The Vault"
- Subtitle: "Real-time transparency into fund operations and holdings."

Dashboard Stats (top of page):

- 4 large stat boxes in a row:
 - "Total Vault Holdings: —"
 - "Active Positions: —"
 - "Total Distributed to Shareholders: —"
 - "Operations Completed: —"
- All placeholder dashes for now

"Current Holdings" Section:

- Headline: "Portfolio Holdings"
- Table or card grid with columns:
 - Asset | Entry Market Cap | Current Market Cap | Status | Date Acquired
- Placeholder rows:
 - "[REDACTED] | — | — | Accumulating | —"
 - "More positions will be disclosed as operations complete."
- Style like a Bloomberg terminal or institutional portfolio dashboard

"Distribution History" Section:

- Headline: "Distribution History"
 - Table with columns:
 - Operation # | Asset | Amount Distributed | Qualifying Holders | Date
 - Placeholder:
 - "No distributions yet. First operation pending."
 - Note below table: "All distributions are verifiable on-chain via Solana Explorer."
-

PAGE 5: INSIGHTS

Hero:

- Headline: "Insights & Announcements"
- Subtitle: "Official communications from Blackpebble leadership."

Content: Blog/Press Release Style

- List of entries styled like corporate press releases:
 - Each entry has: Date | Headline | Brief excerpt | "Read More" link
 - Placeholder entries:
 1. Date: "TBD" | "Blackpebble Announces Formation of Meme Asset Fund" | "Today we announce the formal establishment of Blackpebble as the premier institutional vehicle for meme asset management on Solana..."
 2. Date: "TBD" | "Investment Strategy & Shareholder Qualification Framework Published" | "We are pleased to share our comprehensive investment strategy and the framework by which shareholders will qualify for distributions..."
 3. Date: "TBD" | "Operation #001 — Accumulation Phase Initiated" | "[CLASSIFIED] — Details to follow upon completion of accumulation phase."
 - Style each entry like a card with subtle left border accent (gold)
-

PAGE 6: COMMUNITY

Hero:

- Headline: "Become a Shareholder"
- Subtitle: "Join the most sophisticated community in the meme economy."

"How to Participate" Section:

- Headline: "Acquire \$BLK"
- Steps:
 1. "Purchase \$BLK on PumpFun or Jupiter Exchange"
 2. "Hold in your Solana wallet to qualify for distributions"
 3. "Engage with the community to increase your Participation Score"
 4. "Receive airdropped assets from fund operations directly to your wallet"
- CTA button: "Buy on PumpFun" (links to # placeholder) | "Buy on Jupiter" (links to # placeholder)

"Shareholder Benefits" Section:

- Headline: "Shareholder Benefits"
- Cards:
 - **Token Distributions** — "Receive airdropped tokens from every fund operation proportional to your qualification score."
 - **Priority Intelligence** — "Shareholders receive operation announcements before public disclosure."
 - **Community Governance** — "Participate in non-binding sentiment polls on fund direction (note: final decisions remain with Lead Fund Manager)."
 - **Exclusive Access** — "Future NFT drops, tools, and alpha channels reserved for qualifying holders."

"Connect" Section:

- Headline: "Official Channels"
- Large circular icon buttons (same style as footer but bigger, ~60px):
 - X (Twitter) | Telegram | PumpFun | DEX Screener
 - Each is just the icon in a circle with border, no text label
 - Links to # placeholder for now

"PFP Generator" Teaser:

- Dark card with subtle border
- Headline: "Institutional Profile Generator"
- "Coming Soon — Generate your official Blackpebble shareholder profile image."
- Grayed out / locked appearance

LOGO USAGE

Two logo files will be uploaded:

1. **White-on-black flat text logo** (clean, minimal "BlackPebble" wordmark) — Use this in:
 - Navigation header (left side, ~150px wide)
 - Footer (small)
 - Favicon (crop the "B" or use as-is scaled down)
2. **Brushed metal 3D logo** (dimensional "BlackPebble" text on dark metallic background) — Use this in:

- Home page hero section (large, prominent, centered)
 - About Us page as a banner/accent image
 - Can be used as a background element with low opacity if needed
-

SOCIAL ICON BUTTONS

For the circular social buttons in the footer and Community page:

- User will upload actual app icon screenshots for: X (Twitter), Telegram, PumpFun, DEX Screener
 - Apply these styles to each:
 - width: 40px (footer) or 60px (community page)
 - height: same as width
 - border-radius: 50%
 - border: 1px solid #1f1f1f
 - overflow: hidden
 - object-fit: cover
 - No text labels — icon only
 - Subtle hover effect: border color transitions to gold accent
-

CRITICAL REMINDERS

1. **TONE: 100% straight-faced corporate.** No jokes. No memes. No emojis. No "to the moon." No "WAGMI." The entire site reads like a real asset management firm. The comedy is implicit.
2. **Design reference: blackrock.com.** Match their layout patterns, spacing, typography hierarchy, and information architecture as closely as possible while using the dark color scheme.
3. **All data is placeholder.** Use "—" or "TBA" for any numbers/stats. These will be filled in post-launch.
4. **Mobile responsive.** Must look clean on iPhone.
5. **Performance.** Keep it fast. Minimal dependencies. No heavy frameworks unless needed.
6. **The ticker is \$BLK.** The project name is "Blackpebble" (one word, capital B and P).
